Remove the minus sign in Eq. (2.2a), replace  $+$  in front of  $2v^2$  by  $-$  in Eq. (4.26). A  $/$  should be placed between  $\beta\Delta A^{\text{ex}}$  and  $N$  in Eqs. (4.2) and (4.3). In the last term of Eq. (4.2) replace  $y_{+-}(\sigma, \lambda')$  under the integral by  $\ln y_{+-}(\sigma, \lambda')$ .

$y_1 + d_2$  should be replaced by  $y_1^2 + d_2^2$  in Eq. (2.36c) and a  $/$  should be inserted before  $D_1$  in Eq. (2.39b).
