

JOURNAL OF THE CHEMICAL SOCIETY

Dalton Transactions

Inorganic Chemistry

including bioinorganic, organometallic, and solid-state chemistry, and chemically significant spectroscopy

CONTENTS

- v Instructions for authors (1984)
- xxiv Refereeing procedure and policy (1984)
- 1 The crystal structure and electronic properties of bis(2,2'-bipyridyl)copper(II) bis(hexafluorophosphate) **Judy Foley, Suresh Tyagi, and Brian J. Hathaway**
- 7 The low-temperature crystal structure (203 and 123 K) and electronic properties of diammonium hexa-aquacopper(II) disulphate: a fluxional CuO_6 chromophore **Nathaniel W. Alcock, Mary Duggan, Angela Murray, Suresh Tyagi, Brian J. Hathaway, and Alan Hewat**
- 15 The crystal structure of bis(*NN*-diethylethylenediamine)copper(II) dinitrate and the electronic properties of some square planar CuN_4 chromophores **Andrew Walsh and Brian J. Hathaway**
- 19 Some oxygen-donor di-*N*-thiocyanato-thorium(IV) and -uranium(IV) bis[hydrotris(pyrazol-1-yl)borate] complexes **Ikhtiar Ahmed, Kenneth W. Bagnall, Li Xing-fu, and Pao Po-jung**
- 23 Synthesis and chemistry of 1,3-dihydrotellurolo[3,4-*b*]quinoxaline and derivatives: crystal and molecular structure of 1,3-dihydro-2,2-di-iodo-2 λ^4 -tellurolo[3,4-*b*]quinoxaline-2,3-bis(iodomethyl)quinoxaline (1:1) **Harkesh B. Singh, William R. McWhinnie, Thomas A. Hamor, and Richard H. Jones**
- 29 Properties of novel iron-sulphur proteins formed by the introduction of a synthetic iron-sulphur cluster into bovine serum albumin and bovine insulin **Barbara Odell and Philip J. Geary**
- 37 Structural and spectroscopic characterization of complexes containing the mononuclear trihalogenometalates $[\text{CuI}_3]^{2-}$, $[\text{CuBr}_3]^{2-}$, and $[\text{AgI}_3]^{2-}$. Crystal structure of $[\text{PMePh}_3]_2[\text{CuI}_3]$ **Graham A. Bowmaker, George R. Clark, David Alan Rogers, Annamaria Camus, and Nazario Marsich**
- 47 Chromium(III) complexes of multidentate phosphines, arsines, and thioethers. Crystal and molecular structure of the complex *mer*- $[\text{Cr}\{\text{P}(\text{CH}_2\text{CH}_2\text{PPh}_2)_3\}\text{Cl}_3]$ **Leslie R. Gray, Annette L. Hale, William Levason, Francis P. McCullough, and Michael Webster**
- 55 Synthesis and chemical characterization of the new anions $[\text{Rh}_3(\mu_3\text{-E})_2(\text{CO})_6]^-$ (E = S or Se). Crystal and molecular structures of $[\text{PPh}_4][\text{Rh}_3(\mu_3\text{-S})_2(\text{CO})_6]$ and $[\text{NMe}_4][\text{Rh}_3(\mu_3\text{-Se})_2(\text{CO})_6]$ **Daniele Galli, Luigi Garlaschelli, Gianfranco Ciani, Alessandro Fumagalli, Secondo Martinengo, and Angelo Sironi**
- 63 Crystal and supramolecular structures of complexes of BF_3NH_3 and BH_3NH_3 with 18-crown-6 **Howard M. Colquhoun, Geraint Jones, John M. Maud, J. Fraser Stoddart, and David J. Williams**
- 67 Cyclopentadienyl complexes of uranium(IV) chlorides. Crystal structures of trichloro(η^5 -cyclopentadienyl)bis-(triphenylphosphine oxide)uranium(IV) tetrahydrofuran solvate and of trichloro(η^5 -cyclopentadienyl)bis(hexamethylphosphoramide)uranium(IV) **Kenneth W. Bagnall, Franco Benetollo, Gabriella Bombieri, and Giovanni De Paoli**

CONTENTS

- 75 Enthalpies of sublimation of transition metal complexes **Philip M. Burkinshaw and Colin T. Mortimer**
- 79 Spectroscopic studies on C₂ hydrocarbon fragments. Part 2. Vibrational group frequencies and carbon-13 nuclear magnetic resonance chemical shifts of cluster-bound C₂H_{*n*} (*n* = 1—4) fragments **John Evans and Gregory S. McNulty**
- 87 Lanthanide oxides: preparation and ageing **Rafael Alvero, Jose A. Odriozola, Jose M. Trillo, and Serafin Bernal**

Notes

- 93 Preparation and characterization of the adduct UO₂F₂·AsF₅ **Darja Gantar, Boris Frllec, and Bogdan Volavšek**
- 95 Scrambling equilibria of some dimetal decacarbonyls **Antonio Marcomini and Anthony Poë**
- 99 Cyclopalladation of 4-methyl-4'-nitrodibenzyl sulphide **Katsuma Hiraki, Yoshio Fuchita, and Yasunori Kage**

AUTHOR INDEX
