In the Abstract and the Introduction the binary alloy composition should read $\text{Sn}_{0.09}\text{Ga}_{0.91}$ instead of $\text{Sn}_{0.09}\text{Ga}_{0.81}$. The captions associated with Figs. 3 and 4 were interchanged in the editing process. These captions should read as follows:

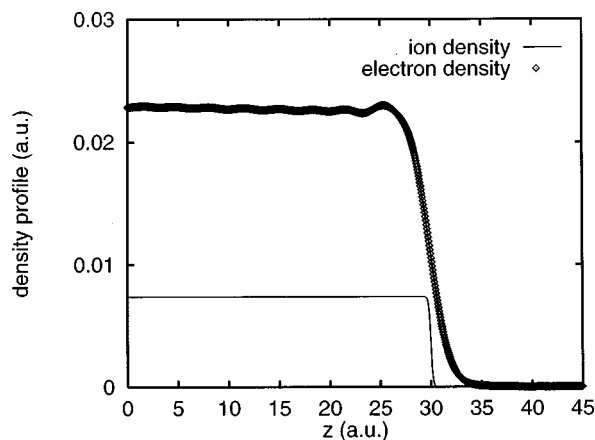

FIG. 3. A typical mean valence electron density profile in liquid $\text{Sn}_{0.09}\text{Ga}_{0.91}$ superposed on the jellium reference density at 0.0495 at./\AA^3 .

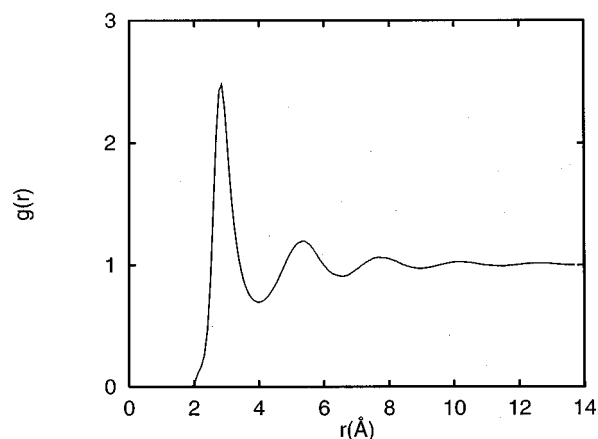

FIG. 4. Transverse pair correlation function of bulk liquid $\text{Sn}_{0.09}\text{Ga}_{0.91}$ at a density of 0.0495 at./\AA^3 and $T=57^\circ\text{C}$.
